Our Deli Boxes are ideal for the grab and go and take away markets. Our containers are capable of being recycled with a leak resistant design. All boxes have a fold over lid with a clip in closure and are available in different sizes and colours.

- Webbed design for leak resistance
- PE lined (Recyclable – where facilities exist)
- Available in different sizes and colours subject to minimum orders and lead time

PROMOTE YOUR BUSINESS

Bespoke branded packaging acts as an extension to your marketing by giving you an important opportunity to promote your business.

The simple process of somebody drinking their favourite beverage, combined with travelling from one location to another offers considerable time to get you brand noticed.

This effective tool can build and establish brand awareness and brand recall with the end consumer and people they come in contact with.

OUR PRINTING PROCESS

At Go-Pak we use a spot colour printing process because it is the best method to ensure colour accuracy, print run continuity and provide a high quality print.

The Pantone Matching System (PMS) is a universal colour matching system where each colour is pre-mixed with a specific formula and represented by a numbered code, similar to picking out your favourite paint to decorate a room.

Another key benefit of using Pantone inks is that they are vegetable (soya) based and completely food safe.

At present we can offer a maximum of 6 solid Pantone colours per print with either a gloss (coated) or matt (uncoated) finish.

YOUR BESPOKE PRINT OPTIONS

To keep the process as straightforward as possible, a member of our Go-Pak team will talk you through all the requirements for custom print, from choosing the right products, to the minimum order quantities (MOQs), to finalising designs and deciding quantities through to delivery.

There are two ways that we can help you get ready for custom printing your packaging.

WE CAN

Design your artwork for you! Just send us your logos with an idea of what you want and how you would like it to look and we will take care of the rest.

Let us know how you would like it packed and we will design the most optimum packaging solution.

OR

We can supply you with our templates for your own graphic designers to place your artwork and specifications on:

- Lead time depends on quantities and packaging requirements.
- Original packaging design.

Go-Pak works with a number of blue chip companies in all sectors of the industry and our consultative approach to own label will deliver your requirements of quality packaging for your products.

ADDITIONAL SERVICES FOR YOU

As well as following specific project briefs and brand guidelines, we can offer some additional essential services designed to help you determine that your design is perfect for your requirements, before going into the mass production phase.

- Colour matching.
- Original packaging design.
- Complete redesigns.
- In-house product mock-ups.
- Pre-mass production flat samples.
- Pre-mass production fully formed samples.
