

Notpla kraft food boxes

**SAVES OVER 250KG CARBON-DIOXIDE AND 3000L
PER TONNE OF CARTONBOARD WHEN COMPARED TO
CONVENTIONAL FRESH-FIBRE ALTERNATIVES**

Notpla kraft food boxes

These FSC certified kraft food boxes are lined with Notpla Coating, a special lining made from naturally renewable seaweed and plants that replaces the plastic coatings used on some foodservice products.

Unlike PLA and other bioplastics, Notpla Coating does not require specific recycling pathways or specialised industrial composting equipment to degrade. It takes less than six weeks for it to completely decompose in a home composting environment.

- **A special lining made from seaweed**
- **Naturally renewable resource**
- **Boxes manufactured in the UK**
- **FSC certified board**
- **Recyclable**
- **Home compostable in six weeks**
- **Inclusion of grass (up to 30%) Saves over 250kg carbon-dioxide and 3000L per tonne of cartonboard when compared to conventional fresh-fibre alternatives**

Code	Description	Capacity	Case Size
